Subject: RE: Clearon Corporation and Ameribrom

Dear Ms. Washington.....

In response to your inquiries below concerning clarifications to HPV commitments made through the IIAHC for Trichloro-s-triazinetrione (CAS 87-90-1), Sodium dichloro-s-triazinetrione (CAS 2893-78-9), and Sodiumdichloro-s-triazinetrione, dihydrate (CAS 51580-86-0), I can provide the following as the Chairman of the IIAHC HPV Review Committee:

1) As indicated in our HPV responses to EPA, questions on these submissions from the IIAHC should be directed to me at (678)502-4127, or to Ms. Geri Werdig, the IIAHC Panel Manager at (202)546-3260, or the e-mail address above.

Indeed, Clearon Corporation is a member of the IIAHC HPV Review Committee, however you should still contact me or Ms. Werdig directly with questions on these IIAHC submissions. If your questions for Clearon or Ameribrom are separate from these submissions, you may try Mr. Antony Hand who is the Clearon representative to the IIAHC, at the e-mail address above.

2) I also can confirm that Fertilizers and Chemicals, Ltd. is no longer a member of this consortium, and that Inquide-Flix S.A. is a newly added member.

I hope this information provides adequate clarification for you.

Regards,

Gary Wright

IIAHC HPV Review Committee Chairman

Subject: Clearon Corporation and Ameribrom

Dr. Wright,

Thank you so much for responding to my phone call yesterday. We would really appreciate clarification from you on the matters indicated below.

Is James McBriarty, Director of Regulatory Affairs, Ameribrom, Inc. the appropriate contact for HPV commitments made through the Isocyanurate Industry Ad Hoc Committee (IIAHC) for Trichloro-s-triazinetriene (CAS 87-90-1), Sodium dichloro-s-triazinetriene (CAS 2893-78-9), and Sodium dichloro-s-triazinetriene, dihydrate (CAS 51580-86-0)?

IIAHC lists Clearon Corporation as a member company. We were advised during a recent call to Clearon that Dr. Francis Koschier, our previously identified contact, no longer works for either Ameribrom or Clearon. We were further advised that Ameribrom is now the appropriate contact. Will you please verify that this information is correct, and provide the name of the contact person.

Lastly, will you please confirm that Fertilizers and Chemicals, Ltd. is no longer a member of the consortium and that Inquide-Flix S.A. is a newly added member, as would be inferred from recent communications from IIAHC.

Thanks so much for your help.

Annette Washington
